

[Avast Malware Protection For Mac](#)

A screenshot of a Chrome browser window displaying the Avast Online Security Settings page. The browser's address bar shows "chrome://wrc/content/options.html". The page title is "avast! Online Security Settings". The Avast logo is visible in the top left. The settings are listed with checkboxes:

- Antiphishing** Scans websites for malware and prevents phishing
- Do not track** Detects and blocks unwanted advertising and prevents analytics sites from secretly tracking you
 - Block social networks by default
 - Block ad tracking by default
 - Block web analytics by default
 - Block others by default
- SiteCorrect** Detects and corrects mistyped URLs and directs to legitimate sites
 - Skip prompt and automatically redirect to legitimate sites
- CommunityIQ** Allow submission of anonymous data to enhance our services
- Search engine results** Enable coloring of search results page
 - Enable popups on search results page
- SafePrice** Receive SafePrice shopping recommendations on relevant sites.

At the bottom, there are two buttons: "Save" (blue) and "Reset to default" (grey). A red oval highlights the "SafePrice" setting, and a red arrow points to the refresh icon in the browser's toolbar.
